 In our workshop "The Mountain World and Its Rules", we address themes including environmental awareness in nature, trash avoidance, spending a night in the forest, correct equipment and first aid with the help of easy-to-understand pictures.

Children learn through play, thinking and sharing their own experiences.

Our little hikers learn how important it is not to leave trash behind in nature – and that whatever they take with them onto the mountain, also has to be carried back to the valley later. They are also taught how vital it is to help each other in difficult situations and to behave the right way around grazing cattle.

All these themes are brought together within the framework of a beautiful, adventurous journey.

Our workshop lasts between 1 and 1.5 hours and can be held either in a room or out in nature.

The workshop is divided into two parts. In the first part, we will learn theory and practice through alternative methods. In the second part, each child will craft his or her own campsite to take home as a souvenir.

 Wild moments, fast descents, fun and games - on the Wilder Berg in Mautern you will never be bored!

The chairlift floats gently over the animals to the mountain station. Around 300 Alpine animals welcome guests to Wildpark Mautern. Feedings with the keepers and the bird of prey show provide exciting insights into the secrets of wildlife, while at the children's farm, the animals can even be petted.

Fun and games await you at the Kinderstadt with a giant slide, a climbing tower and a haystack where you can romp and jump. For active children, the park offers meter-high slides, swings, carousels and water features. In some cases, a fee is charged. When hunger strikes, there are lots of delicious refreshments for the kids to enjoy.

If you want to take a fast ride down to the valley, you can hop on a mountain kart or the Alpine Slide. On days you prefer to hike, the interactive forestry theme path from the mid- to the valley station will definitely appeal.

Tip: As a child-friendly alternative to the chairlift and not dependent on weather, guests can also take a shuttle bus to the mountain station. In high season, a big bus provides regularly scheduled service as posted.

Feeding times:

Bears: every day at 10:30 a.m.
Foxes: every day at 01:00 p.m.
Raccoons: every day at 03:00 p.m.

Open from 23 April to 01 November.

FORSTI'S FITNESSPATH

TIP

The new mascot of Forstau - "Forsti, the Hiking Gnome" just got a great fitness path!

Body, mind and soul are kept fit on the new "Forsti's Fitness Path".

Along a beautiful forest path (about 2.7 km in length) children, parents, grandmothers, grandfathers and guests will find 12 fitness stations, which are explained by "Forsti, the Hiking Gnome" and his friends.

From balancing, tire runs, sit-ups, push-ups, step-running, a great forest lounger, slalom run, back trainer, slacklining, hanging bars, to slalom jumping, it has it all.

The path leads from the playground in the center of Forstau via the Panoramaweg to the Auwaldweg, past Langegg pond and back to Forstau. The fitness stations are made of wood and blend perfectly with nature.

3 different levels of difficulty ensure that all age groups will make it through "Forsti's Fitness Path".

Forsti - the Hiking Gnome and his helpers will accompany you.

We wish you a lot of fun and good luck!

FUN FOR THE WHOLE FAMILY

TIP

It will not be boring on the theme trails in THE MOUNTAIN and THE VALLEY. The riddle trail at the **Aigner Kulm** offers interesting questions for young and old explorers, and at the “Go inside you - path” in **Donnersbach**, you’ll be accompanied by proverbs along the way.

Everyone looking to cool off on hot summer’s days will find what they seek at recreation areas in **Irdning**,

Donnersbach and **Donnersbachwald** – where admission is free.

Grimming – the crowning glory
To conclude a fantastic vacation day, we recommend taking a shot of the Grimming for a lasting holiday memory. The highest free-standing mountain in Europe at 2,351 meters is, for good reason, the most popular photo motif in the region.

Oases of quiet along the way invite you to sharpen your senses, meditate at places of natural power, or enjoy the benefits of inhalation therapy next to a waterfall.

ANCIENT WALLS AND CONTEMPORARY ART

Armin Walcher

TIP

Ancient walls, such as the Wolkenstein castle ruins in Wörschach or the ruins of the Ägydius church in **Donnersbach**, attest to the region's long history. Also worth visiting is the Glattjoch chapel in **Donnersbachwald**. Perched at 1,989 meters above sea level, it is the highest chapel in Styria, reachable in ca. 3.5 hours via a hiking path. Also a beautiful lookout point in combination with a

hike: the Stalingrad Cross in **Aigen**. The chapel there reminds us of the many who fell at the Battle of Stalingrad from 1942 to 1943. Culture lovers will find in the **Irdning** Sculpture Park as well as throughout town works made of wood and stone, created by Austrian and international artists.

The historic north-south Alpine axis is today one of our proud cultural treasures. At 1,788 m above sea level, it is Styria's highest mountain pass, connecting Ennstal and Murtal valleys. Even back in the Bronze Age, the pass was used to transport

valuable salt south from the Salzkammergut. On the return journey, wine, spices, fabrics and southern fruits were packed north back over the Alpine divide. Schloss Grosssölk's role was once to protect the trade route through Sölkital.

Nestled atop the summit plateau of the Riesneralm at 1900 m above sea level, the Riesneralm offers memorable mountaintop experiences true to their motto "MORE MOUNTAIN – MORE ADVENTURE".

Well-known highlights of the Riesneralm include the "tierHOLZpark", which even won a tourism prize, as well as the "HochSEEsitz" and, the big recent sensation, a modern panoramic summit pool which evokes a 1950s original.

It is not for nothing that the "Gipfelbad anno dazumal" was the only Styrian company to receive the Austrian Tourism Award.

But others, too, continue to be must-see classics for visitors, including the "UNIVERSUM" exhibition, the "1st European Barefoot Summit Path", the "KRISPINI Children's Treasure Hunt", the Hochsitz JAGasteig and the two "Square-chairs". The rustic-style "Hochsitz" summit hut, with its unique 360° sun terrace and a pine room with summit lounge, never fails to impress visitors.

 Trautenfels Castle is enthroned on
a rocky outcropping at the foot of
the Grimming. It was here that a
castle by the name of Neuhaus was
first mentioned in 1261. In the 17th
century, the building was remode-
led by Count Siegmund Friedrich
von Trauttmansdorff in the style
of the Baroque. The high-quality
frescoes were created by Carpofo-
Tencalla, the stucco work by Ales-
sandro Sereni. Since the structure
underwent thorough rehabilita-
tion work in 1992, visitors are also
surprised by modern architectural
elements in the midst of this historic
building. The regional heritage mu-
seum housed at Trautenfels Castle
presents the cultural and natural
history of the Styrian Ennstal and
Ausseeerland regions in a series of 13
kaleidoscope-like rooms. The look-
out tower, open to the public, af-
fords broad views across the alpine
world of the Ennstal. Accessible to
people with mobility limitations and
those with learning disabilities.

SPECIAL EXHIBITION 2020
**Summit Assaults Styrian expedi-
tions to the roof of the world**
A highlight of Styrian alpine
history was written 42 years ago:
The first Austrians stood on top
of the world's highest mountain,
Mount Everest! Robert Schauer
from Graz was, together with Wolf-
gang Nairz and Horst Bergmann
from Innsbruck, one of the first
Austrians to climb to the “roof-top
of the world” on 3 May 1978. This
exhibition shows the expeditions
of Styrian men and women as they
explored the highest mountains in
Asia. Tales of mountaineering ad-
ventures are brought vividly to life
through a multimedia presentation
of historical and current documents
along with the original objects on
exhibit.

Open from 04 April to
31 October 2020.

i The Nickel Museum is a “walkable showcase” housing a permanent exhibition which impressively documents the mining tradition of the Schladming region. The central focus is on the processing and subsequent use of nickel, once and even now a highly sought-after metal. Traces of the past leave a lasting impression on visitors, while the extraordinarily dangerous work of the miners becomes clearly evident. The imp, whose name also happens to be “Nickel”, injects extra life into the exhibition for kids, motivating them to learn even more.

Main themes include the tourism development of the town, the unique birth and preservation of the Protestant faith in the Catholic Habsburg realm, with a focus on the time of the Reformation, Counter Reformation and secret Protestantism, and of course, the whole Dachstein theme, its first ascent, development and exploration. The topic of hunting and its history is also given significant space in a special permanent exhibition.

The visitor experience is further enriched by temporary special exhibitions from a variety of different fields.

Our "little" guests are joined on their tour of the museum by our mascot "Klaus the Mouse".

Interactive installations, historical objects, pictures and films allow you to perceive and experience, surmise and discover unique aspects of the Ramsau area.

The museum shop in the entrance area carries historical and contemporary regional literature, photos and films about Ramsau and the Dachstein, arts & crafts souvenirs, as well as regional products, plus much more.

Special Exhibition 2020

In our special exhibition "Time Window", we will show you in word and images focused on different theme areas the massive changes in lifestyle and appearance of Ramsau am Dachstein over the last 100 years.

So-called "Time Windows" in the Ramsau am Dachstein countryside complement the special exhibition.

DO YOU ALREADY KNOW...? in Forstau

PATH OF ST. LEONHARD – LOURDES CHAPEL

TIP

The Path of St. Leonhard begins at the cathedral in Salzburg and ends in St. Leonhard outside Tamsweg, though it also leads through **Forstau**. The parish church in Forstau (built 1742) is likewise consecrated to St. Leonhard. At the bottom of a short pathway, we come to the Lourdes Chapel. This chapel on the banks of the Forstaubach commemorates the visions of the Virgin Mary and the miraculous healings associated with Lourdes, the famous pilgrimage destination in France. Its most striking feature is a grotto with stalactites. In part,

they were brought here especially from France, while the rest originated in the Forstau area adjacent to the Oberhütensee. A Madonna in Neo-Baroque style, which could be positively identified as a Lourdes figure, is embedded in the stone grotto.

The chapel has remained unchanged since it was established. In 2004, the Lourdes Chapel was designated as a listed monument. The chapel is open to all interested visitors.

in Öblarn

ART @ CULTURE

TIP

The biggest amateur theater in the Alpine region puts on regular performances and transforms the entire town into a stage. "Die Hochzeit" ("The Wedding") has a historical theme and revolves around the love story of Archduke John and Anna Plochl. Written by famous poet Paula Grogger, it never fails to captivate thousands of viewers sitting out on a village square that has remained unchanged for centuries.

The Öblarn art & cultural association [ku:L] hosts a wide variety of events: concerts including folk music, jazz and classical, travelogues, improv theater, cabaret, children's movies, yodeling and dancing classes, exhibitions,... The goal is to offer art and culture in rural areas, thereby making these areas even more appealing. [ku:L] sees itself as an open, tolerant institution for encounters that span generations; where imagination and creativity are allowed to unfold.

 The Austrian Outdoor Museum in Stübing near Graz is one of the ten biggest of its kind in Europe. The biggest and only outdoor museum in Austria, it highlights the various types of buildings typical of our different provinces.

During this journey through time and across Austria, the 100 historical buildings tell fascinating stories about the daily life and work of our rural population in years past. A full, colorful annual program including crafts, traditions, festivals, children's afternoons and more, for all the variety and fun you could possibly wish for.

2020 focuses on the daily lives led by children in the olden days. Back then, their daily lives throughout the year were dictated by the rhythms of the farm. Depending on their gender, they had numerous chores they were responsible for, which also meant they had very little free time. Work and play often went hand-in-hand, they told stories about looking after cattle, sang about fetching water, or played on the way to school with objects they found in nature.

This year's theme covers a full spectrum, from the work with which they were entrusted to their colorful games. Rediscover the world of children as it used to be with the help of a wide variety of play and activity stations. Kicks off on 17 May 2020 at the big Stübinger Kirtag country fair.

 E-Trials – the trendy new bike sport has arrived on the Planai in Schladming. Trials bikes are a motorized variant of mountain bikes and have either no, or just a hint of a seat, a rigid fork and low frame height. Sensational jumps, balancing acts involving natural obstacles such as streams, tree stumps and fences are as much a part of trials as stylishly overcoming man-made obstacles such as stairs and wooden elements.

E-Trials Park Planai isn't just a great opportunity for experienced trials pros – it's also a great practice area with three different levels of difficulty (blue, red, black), ensuring that even the littlest and least experienced bikers will have just as much fun. Bikes are available for kids of all ages from 3–99. Brief instruction and protective clothing are provided at the bike station in the Weitmoosalm.

The bike park is closed in heavy rain, fog, snow etc. Current opening times are posted daily on Facebook and Instagram (@trialstars).

 **Hiking to whet your appetite!**
Together, we will hike through the picturesque mountains and hills. At our destination, we will enjoy a delicious meal prepared in a wok. Tours will be tailored to the participants and weather conditions. Our tours are led exclusively by certified hiking guides.

In all of our guided open-air activities, outdoor exercise sessions play an important role. These interventions are energizing, create space for new thoughts, a change of pace, creativity and fresh points of view – only when the body is in motion can we develop a different perspective.

Please note: min. 4 participants, sturdy shoes and hiking clothes required

Meets: as agreed by participants

"Mountains in Motion" offers a concept that combines physical training, outdoor sports in the fresh air, mountaineering along with healthy, good food prepared in an outdoor wok. On the way up, group exercise sessions actively integrate the natural setting. We will reach our destination and enjoy the views together.

i The Museum of Poaching is unique in all of Europe, providing us with an original depiction of the history of poaching in the Alpine region. The historical and social background is documented, as are the punishments which awaited poachers, the fates of specific poachers and the legendary Poachers Battle of Molln. Based on the ideas of famous cultural historian Roland Girtler, this exhibition also shows the kitschy depiction of poaching in old movies, novels and songs, as it does a number of original poaching weapons.

Terms & Conditions

The following conditions are expressly stipulated for the issuance and use of the Sommercard.

Definition

The Sommercard allows all people who are staying at any of the Card's participating lodging establishments during the Sommercard season, and who are registered with an officially designated registration form, to take full advantage of the stipulated services offered by Sommercard partner businesses. The services are specified and listed in the brochure "Card Brochure 2020". In addition, there are also discounted services (Bonus Services), which are also compiled in this same brochure.

Scope of Services/Liability Disclaimer

All Sommercard partner establishments listed in the brochure in question have obligated themselves to make available to holders of the Sommercard all of their advertised Sommercard services, both with regards to time and quantity, in accordance with and with respect to their own general conditions of carriage and business, this during their usual hours of business and to their full extent. Holders of the Sommercard understand and accept that the operating times of some partners, primarily due to weather- or season-related circumstances, are not always identical with the full time frame of the Card season. With some business, there may be long waiting times due to capacity-related reasons.

The holders of a Sommercard declare their agreement with the listed opening times, any and all access restrictions, as well as with the maximum capacity as stated by participating establishments. Holders waive any and all damage claims when, whether for operational reasons, or due to no fault of the service provider, the services offered cannot be provided, either in part or in whole. Furthermore, the service providers are liable for gross negligence and premeditation, but not for slight negligence. In addition, no liability exists for any accompanying clothing or other accompanying valuables.

Holders of the Sommercard furthermore understand and accept that the ARGE Schladming-Dachstein Card is entitled to end its agreement with the individual Card service providers if there is important cause to do so, even during the current season. No claims of whatever kind may be asserted as a consequence of such action.

Partner businesses provide their services under their own authority and as legally independent entities. The Sommercard entitles the holder to avail him- or herself of the offered services, though the concrete service agreement is only with the partner business whose services are currently being used. Liability with respect to Sommercard holders, whether contractual or legal, pertaining to incidents occurring during involvement in the proffered services, is borne exclusively by the business under whose purview the incident occurs. Liability for other partner businesses of ARGE Schladming-Dachstein-Card does not exist.

Conditions for Issue of the Sommercard:

The participating lodging establishment is obligated to draw the guest's attention to the Sommercard, regardless of the length of his stay.

A guest staying at a participating lodging establishment receives the Sommercard from his host for the length of his stay. Precondition for issuance of the Sommercard is that the guest, in accordance with legal statutes, has registered with the establishment for the duration of the stay. The Sommercard must be signed by the guest, at which point the Card becomes valid. Data privacy statement see: www.schladming-dachstein.at/datenschutz

Non-Transferability/Loss

The Sommercard is non transferable. The Sommercard is only valid when accompanied by a photo ID. The Sommercard may only be used by the person whose name and identification number are noted on the Card or stored on the chip. In the event that the Sommercard is not utilized, no reimbursement will be made. A lost Card immediately becomes invalid.

Validity

The Card season for 2020 starts from 21 May and ends on 18 October. The Sommercard is valid during this time period.

Rates

The Sommercard cannot be purchased on the open market (except for season cards). Only those who stay in one of our participating lodging establishments and who have officially registered as hotel guests in accordance with applicable Styrian and Salzburg's law, have a right to this Card.

Children

Small Children: As per the rate schedule for the 2020 season, "Small Children" are those persons born in the years 2015 up to 2020.

Usage

To receive the benefits of the Card, the Card holder must present his Sommercard. The service provider will check the Card with respect to validity and identity, either with authorization equipment, or merely by visually checking the Card details with regards to Card number and the name of the holder. The Card holder is obliged to present a valid photo ID if so requested. Failure to do so may result in his being denied full services.

Damage

In the event of damage to or technical problems with the Sommercard, the Card or tourist business will exchange the Card at no cost.

Misuse

In the event of misuse or any suspicion of misuse, participating Sommercard partners are entitled and obliged to confiscate the Card without compensation. In the event of misuse or well-founded suspicion of misuse of the Card, a formal complaint will be lodged. The Card holder is liable for misuse of the Card by third parties. Theft or loss of the Card obliges the holder to report the incident promptly to ARGE Schladming-Dachstein-Card or the Schladming-Dachstein Marketing GmbH by calling +43 (0) 3687/23310. There exists no right to replacement of the Card. The Schladming-Dachstein Sommercard is non-transferrable. Any misuse, including impermissible use by others, will result in immediate confiscation of the Sommercard without compensation. Misuse may also result in a fine of at least € 70.- as well as filing of a criminal complaint. Any attempt to transfer the Sommercard to another person is regarded as misuse. Each ticket holder must keep the Sommercard in a safe place to insure it may not be misappropriated by third-parties.

Liability Disclaimer with respect to the ARGE Schladming-Dachstein-Card

Holders of the Sommercard accept and understand that the Schladming-Dachstein Marketing GmbH and the ARGE Schladming-Dachstein-Card are solely responsible for the transaction between holders of the Sommercard and the service providers and the participating lodging establishments.

Holders of the Sommercard waive any conceivable claim with respect to warranty or damages against the Schladming-Dachstein Marketing GmbH or the ARGE Schladming-Dachstein-Card, regardless of whether the service provider or participating lodging establishment is blamable for damages or not. Let it be clearly noted that – in so far as it may come to an incident of liability – neither the ARGE Schladming-Dachstein-Card nor the Schladming-Dachstein Marketing GmbH is liable for such damages, the more so since neither the service providers nor the participating lodging establishments are adjuncts of the Schladming-Dachstein Marketing GmbH.

Similarly, holders of the Sommercard may assert no claim for damages against the ARGE Schladming-Dachstein-Card or the Schladming-Dachstein Marketing GmbH in the event that any services listed in the brochure are not discharged by partner businesses.

Jurisdiction

For all disputes resulting from use of the Sommercard, as well as any claims with respect to damages or warrantee, let it be so stipulated that exclusive jurisdiction is held by the responsible Schladming courts and that solely Austrian laws will apply.
